

WHITE GLOVE ECOMMERCE

Something Digital has a long history of successful full service implementations for merchants on Magento Commerce.

We enable merchants to gain an edge over the competition by taking the time to understand their business, goals, competition, and needs.

Our team of experts take a consultative approach throughout our well documented and controlled process to ensure an outcome that provides business certainty, beautiful experiences, and best-in-class performance.

OUR PROCESS

SD's process for delivering the solution may be modified from what follows based on the need to meet the timeline. SD's full service team will plan for hosting and ongoing support for the range of activities necessary to run a successful ecommerce website. Our process:

DISCOVERY

to create a functional specification and wireframes.

DESIGN

of responsive, mobile-first compositions for all pages.

DEVELOP

the working solution.

DEMO

and test the solution.

DEPLOY

to a production environment.
