

B2B COMMERCE ACCELERATOR

Something Digital's B2B Commerce Accelerator offering for the Magento Commerce Pro for B2B enables merchants to go live with an operational online store faster and at a lower cost to market.

By leveraging Magento's native B2B features, merchants can focus their resources on building exceptional experience that fully meet the needs of their customers.

SD employs agile processes, best practice, business analysis, and improved out-of-box(OOB) functionality in this consultative offering to lead merchants to launch a Magento site that fits their business' maturity and goals.

CORPORATE ACCOUNT SUPPORT:

Sell to corporate accounts with multiple buyers and layered organizational structures.

Empower companies to assign specific roles and permissions to their buyers.

Reduce inquiries with self-service order,s quotes, credits, and inventory tracking.

Maximize sales by accepting payments via terms not account and via credit cards, PayPal, and more.

FRICION-FREE ORDERING:

Efficiently manage quote requests and negotiate pricing terms using a streamlined workflow.

Drive recurring revenue with fast ordering. Enter SKUs or upload a CSV file, set up requisition lists, or copy previous orders.

Deliver exceptional service by empowering your team to place orders for customers and assist with orders in process.

EFFORTLESS MANAGEMENT:

Integrate with any backend system using extensive APIs and off-the-shelf extensions.

Quickly meet any requirement with the open, modern, and flexible Magento.

Focus on your business, rather than IT, with a reliable, managed cloud solution.

Fuel your growth with actionable insights from 75 built-in business intelligence reports.

MULTI-CHANNEL SELLING:

Gain efficiencies with a platform that is a B2B and B2C commerce leader.

Manage websites for multiple brands, channel partners, or customers from one interface.

Expand globally with support for multiple languages, currencies, and taxes.

Pricing and timeline varies by project.
Contact us for more information.

POWERFUL SHOPPING EXPERIENCES:

Easily create personalized catalogs, price lists, and promotions for customer groups.

Aid discovery with search, layered navigation, and automated up-sell and cross-sell capabilities.

Boost sales while reducing customer questions with rich product content: videos, image zoom, detailed descriptions, ratings and reviews, and more.

Delight your customers across every device with a mobile-friendly, responsive site.
